

Atomus are delighted to announce that they have been awarded Gold ISV Status from Microsoft for their development work on the Azure platform and their globally deployed Coaching Tool a:coach. The Gold ISV award is the highest level of attainment within the Microsoft Partner Network accreditation and is only held by the top 5% of the Microsoft ecosystem of partners worldwide. In a recent Microsoft sponsored Customer Satisfaction survey Atomus scored very highly for their ability to deliver and customer focus. Simon Mormen, Managing Director of Atomus said "We are all thrilled and delighted at this accolade from Microsoft and are extremely proud to be recognized as a trusted partner. We would like to extend a big thank you to all our clients on the Azure platform who trusted in our expertise and guidance to make the move. We also would like to thank Alistair, Darren, Simon, Lee and the Microsoft team for their assistance and nurturing in the early days of our Azure relationship and on-going support, you guys make our life easier." Atomus specialize in developing and migrating business systems to the Microsoft Azure Cloud across a wide range of technologies including iPad and Android mobile devices and Java alongside the more traditional .Net.
